

**Jan/Feb
2008**[<< Back to Sightings](#) | [Printer friendly version](#)

With such mild weather at the start of the year, it was probably to be expected that some hibernating butterflies would be tempted to fly on suitably sunny days. The first was a **Small Tortoiseshell** that was flying about just outside the Estate on January 12th and on February 6th another was seen over the beach opposite Prince's old clubhouse. 2 **Peacocks** were seen on the 25th.
